

## **A walk from PowderMills Hotel to Battle town.**

**Walking time: Approximately 1hr (Approx ½ hour each way)**

### **Directions to Battle Town**

Looking out from the main entrance of the hotel (towards the front pond), on the left-hand side take the brick steps beside the hotel, at the top of the steps go left through the iron gate. This brings you into trackway. Turn right up the track way and just before you reach the main road there is a gate on the left-hand side adjacent to some stables. As you come to the end of the dirt track and just reach the road, on the left-hand side pass through a metal gate and follow the track down. Follow the footpath sign and the 1066 trail, keeping on this track. This will lead you to Battle town centre and Battle Abbey.

The historic town centre has many specialist shops, museums and cafés is worth a visit. We thoroughly recommend that you visit the Abbey and the site of the 1066 battle.

### **Return to PowderMills Hotel**

Upon return to the Hotel, retrace your steps. Passing Battle Abbey, through a gate stay RIGHT. Walking downhill following the bridleway through a metal gate, keep right and then pass through another gate and almost immediately on your left there will be yet another gate. Follow the path through the field then through a gate.

Take the first path left and bearing left you will come to a wooden path. When you pass over this keep left and you will see a black gate, signage on a tree to the left which says PowderMills guests only. It is very easy to step over the fence by the gate leading you back to PowderMills Hotel.

On behalf of PowderMills Hotel, we hope that you enjoy this walk and please take care whilst doing so.

**Important to note that this walk can occasionally get muddy in places so wearing the right attire is fundamental. Wellington boots, walking boots and trainers are advisable.**
